## **NEWS RELEASE**

### **Teo Lakes chosen for Regional Landfill Site**

Members of the Western Regional Landfill Inc. have selected the site known as Teo Lakes as the preferred location for a joint regional landfill project in west central Saskatchewan. The land, which is owned by the Town of Kindersley, is located six miles west of Kindersley.

The board voted in favour of the decision at its July 24<sup>th</sup> meeting in Kindersley, based on the revised catchment area as some of the original participating municipalities have since discontinued their involvement in the regional landfill project.

Currently, Western Regional Landfill Inc. represents 24 urban and rural municipalities, each of whom will contribute on a per capita basis to a \$75,000 feasibility study to assess the site. A Request for Proposals will be issued shortly to select the successful engineering firm for the project.

The feasibility study will assist in determining the actual cost of construction and operation of the proposed landfill as well as the projected lifespan.

As a result of the decreased catchment area, the group has also determined that only one landfill site will be required, as opposed to the two originally proposed.

Western Regional Landfill Inc. is chaired by Stew Seversen, a representative of the Town of Kerrobert.

The organization's Annual General Meeting is scheduled for Thursday, October 23, 2014 in Kerrobert.
