

Line 3 Replacement Program (Canada)

The largest project in Enbridge history, the L3RP will maintain the highest safety and environmental standards, reduce future maintenance activities and ensure the reliable supply of western Canadian crude oil to the Chicago, U.S. Gulf Coast, eastern U.S. and Canadian refinery markets.

What We're Building ...

km of new
36" steel pipe

pump
stations

cubic metres of added storage
capacity and related infrastructure

The Big Picture ...

\$5.3 billion

capital investment

\$1.8 billion

labour income

24,493

construction jobs*
