Aquatic Facility Project Generates Interest

A call for companies interested in designing and constructing Kindersley's new aquatic facility was successful in generating seven submissions.

The Request for Expressions of Interest (REOI) published by the Town of Kindersley officially closed on February 24, 2017 and the submissions are currently under adjudication by a committee consisting of three Council members, members of Town Administration, and representatives of the Big Dippers Pool Fundraising Committee.

The Procurement Adjudication Committee is expected to present its recommendation to Council this month.

Construction of the aquatic facility is expected to begin in 2017 with the intent that the pool will be operational in 2018, and will be able to accommodate both competitive and leisure aquatic programs. The REOI offered proponents the flexibility to use a cost-benefit analysis and determine whether the best construction option for Kindersley is that of an outdoor or indoor pool, or an outdoor pool capable of being enclosed at a later date.
